About Access411

Access411 provides software solutions and services, focusing exclusively on the needs of K-12 schools. Access411 offers a turnkey solution named Comprehensive, Attendance, Administration, and Security System (CAASS), that includes software, hardware, installation, training, and ongoing customer support. CAASS provides solutions to many of the challenges facing educators today, such as attendance, building and cafeteria access control, weapons detection, student progress and grade reporting, textbook management, School Bus access control, and student information management and analysis. More than 500,000 students use the CAASS solution daily.

Access411's breadth of experience spans from large school districts like New York City Public Schools to small school districts like Camden, NJ. Founded in 1996 as School Technology Management, the company assets were purchased in June 2006 by Morrison Consulting, Inc. and began doing business as Access411 in October 2006. For more information, visit the company's website at www.access411.com.

Access411 Products

Access 411 has developed a vast suite of software products to work with one another for complete K-12 educational management. The Comprehensive, Attendance, Administration, and Security System, known as "CAASS", is the flagship product. CAASS offers K-12 schools an easy and efficient approach to track attendance, provide access control for the school building, create student photo ID cards, and accomplish many other administrative functions. CAASS is currently running in approximately 600 schools. Other products include:

- Administration
- ScanStation
- Hallway Manager
- AutoDialer
- Text Book Management
- BusScan
